
Plan Overview

A Data Management Plan created using DMPonline

Title: Economic aspects of the organization of the region

Creator:Олександр Книш

Affiliation: University of East London

Template: DCC Template

Project abstract:

The main priority of state socio-economic policy is to ensure high and sustainable rates of economic growth. Achieving this goal is impossible without increasing the role of the banking sector in the economy, effective implementation of the banking system to meet the financial needs of the real economy. The article pays special attention to the disclosure of such an issue as credit policy and presents ways to optimize it.
